The Work of the Boom for 1887 Under full Headway.

The citizens of Dodge City held two public meet ings for the purpose of making arrangements t start the spring boom. These meetings were largely attended and much interest was manifested The Times was complimented for the work it was doing, and while the Times is modest it doesn't besitate to take credit for having pricked the bubble that confined the boom, and let loose the giant

that will startle Kansas. Dodge City is ripe and ready for the fray. It i proposed to start excursion trains from eastern points to Dodge City, and to meet the necessary expenses about \$4,000 have been subscribed. More noney will be forthcoming when necessary.

OTHER TOWNS SHODDY In Comparison to Dodge City.

The Fowler Graphic pays Dodge City the folwing neat and deserved compliment: Dodge City is fast assuming metropolitan pr us. In the last two years she has probably mproved faster and more substantially than an ther western Kansas town. In that time she has doubled her population many times, erected some of the finest brick blocks in the state, put in one of the best systems of water works and introducthe electric light, and now they talk of \$50,000 ho tels, union depot, street rallway and more bridges across the Arkansas. We have a few towns in on across the Arkansas. We have a rew towns in our mind who try to make believe they are the future great, but they do not bear inspection beside Dodge. They are shoddy in comparison. Even a superficial view of Dodge City convinces one of her wealth and permanence.

If so, the cars will be running to Ford inside of three months, and everyone who can should get hold of as much town

city:

Citizens of Giadbrook and Tama Co. in general will be interested to know that five of our etardy young men and capitalists have become directors in a bank at Dodge City, the metropolis of southwestern kansas. They are no other than Mr. E. Wiebenson formerly half owner and proprietor of the "Bank of Giadbrook;" Mr. Charles Seamans, long experienced and present chief owner of a Bank at Kinsley, Kansas; Messrs J. B. and H. F. Gaston, two enterprising sons of our ex-county treasuret, Gaston; Julius Fedderson, of the popular general merchandise firm of Fedderson Bros., of the city. These are gentlemen, every one of them formerly Northern Tama citizens, of inquestionable integrity, business tact and ample meansmen of sterding qualities and enterprise, such as any city might be proud to claim as its citizens and business men. With a paid up capital of \$50,000 and have almost unlimited backing.

Already they have selected their building in Dodge City and will soon commences business. Dodge City is a booming place of nearly \$000 in habitants, and metropolitan, appointments, of street cars, electric light and water work and large manufacturing resources. It is situated in the midst of one of the finest agricultural and stock raising countries the sun ever shone on. Its aetiment is almost completed and what it needs most of all is the capital for its devel-pment, and this need is what our bankers propose to supply. Dodge City my congratulate itself on this important question to its capitalistic interests. In this move, what is Northern Tama's loss in good men and good money is Dodge City's gain.
